

## **IFFF Fly Tying Group Fly Tying Skills Awards Program Evaluation Form IFFF Fly Skills Awards Program SILVER AWARD**

### **Evaluation Fly Scoring Instructions**

Please print this form, complete it as you evaluate the flies. When the evaluation is completed to your satisfaction and the tier has met the requirements for the award please forward this Evaluation Form, the flies, and the completed Silver Award Fly Transmittal Form to a member of the Silver Award Evaluation Review Panel for verification and award. Once successfully reviewed by a Review Panel member the office will be notified and the tier will receive his/her award.

Score each Aspect of each pattern and calculate totals on page 9. Scoring:

- 3 Points = Excellent
- 2 Points = Satisfactory
- 1 Point = Needs Improvement

Tier must achieve an overall score of 85% to pass on both the required evaluation flies and the tier choice flies.

**Five of the Six evaluation flies must pass (85%)**  
**Each of the Three Tier Choice flies must pass (85%)**

Overall score is calculated on Evaluation Summary page 9

As an evaluator you may choose to evaluate giving half points or quarter points or even tenths of points for any given aspect of a fly pattern. There are situations where an evaluator might find it necessary to be very detailed in the evaluation of a set of flies. This might particularly be the case if it is anticipated that the tier will have to correct deficiencies in order to receive the Silver Award.

If there are questions regarding evaluations please refer to the Silver Award Evaluation Criteria found on the web site. Further questions should be referred to any member of the Silver Award Evaluation Review Panel also listed on the web site.

**GINGER QUILL DRY FLY – REQUIRED EVALUATION FLY**

ASPECT	POINTS	COMMENTS
Overall Appearance and Proportions		
Consistency – Do all flies look alike?		
Material Selection		
Tail
